Olympia, WA: Train Tracks Sabotaged To Stop Fracking Equipment

By Puget Sound Anarchists - April 20, 2017 24101

Share on Facebook

Tweet on Twitter

Early in the morning of April 20th we poured concrete on the train tracks that lead out of the Port of Olympia to block any trains from using the tracks. We took precautions to notify BNSF (the train company) – we called them and we used wires to send a signal that the tracks were blocked. We did this not to avoid damaging a train, nothing would bring bigger grins to our faces, but to avoid the risk of injuring railway workers.

This action was done to disrupt the movement of trains carrying proppants used in natural gas fracturing. These train tracks are part of a system of pipelines, fracking wells, mines, clearcuts, control centers, fiber optics, dams, highways and factories that cover the planet and are physical manifestations of a process that is destroying the ecosystems, cultures, and inhabitants everywhere. Behind this network of infrastructure there are politicians, CEOs and bureaucrats who have private security, cops, prison guards, non-profit directors, PR consultants

Derailed Amtrak train plunges off bridge onto I-5 lanes south of Tacoma

United States Northern Command

文A

This article is about a Unified Combatant Command of the U.S. Armed Forces. For the Chinese tower manufacturing and wireless broadband company, see [Northcom Group](#).

United States Northern Command (USNORTHCOM)^[5] is a [Unified Combatant Command](#) of the [U.S. military](#) tasked with providing military support for [civil authorities](#) in the U.S., and protecting the territory and [national interests](#) of the United States within the [contiguous United States](#), [Alaska](#) (not [Hawaii](#)), [Puerto Rico](#), [Canada](#), [Mexico](#), [The Bahamas](#), and the air, land and sea approaches to these areas. It is the U.S. military command which, if applicable, would be the primary defender against a [mainland invasion of the United States](#).

USNORTHCOM was created on 25 April 2002 when President [George W. Bush](#) approved a new [Unified Command Plan](#), following the [September 11 attacks](#). USNORTHCOM went operational on 1 October 2002.

The support that USNORTHCOM provides to civil authorities is legally limited by the [Posse Comitatus Act](#), which sets some limits on the role of the U.S. military in civilian [law enforcement](#). However, in case of [national emergency](#), natural or man-made, its [Air Forces Northern National Security Emergency Preparedness Directorate](#) will [take charge](#) of the situation or event.^[6]

United States Northern Command

Emblem of United States Northern Command

State of emergency

ᄇA

For other uses, see [State of emergency \(disambiguation\)](#).

A **state of emergency** is a situation in which a government is empowered to perform actions that it would normally not be permitted. A government can declare such state during a disaster, civil unrest, or [armed conflict](#). Such declaration alerts citizens to change their normal behavior and orders government agencies to implement emergency plans. *Justitium* is its equivalent in Roman law—a concept in which the senate could put forward a final decree ([senatus consultum ultimum](#)) that was not subject to dispute.

States of emergency can also be used as a rationale or pretext for suspending rights and freedoms guaranteed under a country's [constitution](#) or [basic law](#). The procedure for and legality of doing so vary by country.
